PROFILE

Java Backend Developer with 1.10 years of experience in building scalable applications using **Java, MySQL, and Hibernate**. Skilled in **OOPs, REST APIs, unit testing, and version control**. Experienced in working within **Agile teams**, writing clean and efficient code, and optimizing database performance. Seeking a challenging role to contribute technical expertise and grow as a backend developer.

TECHNICAL SKILLS

- **Programming And Backend:** : Java (Core/Advanced), Spring, Spring Boot, RESTful APIs, Hibernate, JPA.
- **Architectural & Methodologies:** Microservices, Agile, DevOps, Object-Oriented Design (OOPs), Multithreading & Concurrency, Design Patterns.
- **OS Environments:** Linux, Windows.
- **Databases:** SQL, MySQL.
- **Testing Tools/Platforms:** Unit Testing (JUnit), Maven, Git, GitHub, IntelliJ IDEA / Eclipse, Postman, Jenkins / CI-CD Pipelines.

EXPERIENCE

Sune Solutions Pvt Ltd – Hyderabad

Mar 2025 – Jul 2025

QA & Java Support Engineer

- Performed manual functional and regression testing of web and mobile applications to ensure quality and reliability.
- Reported, tracked, and documented defects using Excel, collaborating closely with developers for timely resolution.
- Validated UI/UX consistency across devices for React Native mobile applications.
- Assisted in Java bug fixes and provided backend support during production issue resolution.

AllReach Technologies – Bengaluru

Jul 2024 – Nov 2024

Software Engineer(Backend Developer)

- Developed and optimized a Student Management System using Spring Boot and MySQL, improving CRUD performance and reducing system response time by 20% and boosting development speed by 30 % and maintaining high code quality through unit testing.
- Implemented JWT-based authentication to secure REST APIs, ensuring role-based access control & data security.
- Designed and delivered a Job Portal module within the Campus Management System, streamlining job postings and increasing user satisfaction by 25%.
- Created a personal portfolio website with React.js, leveraging reusable components for smooth interactivity and efficient state management.

Fujitsu Consulting India Pvt Ltd – Bengaluru

June 2023 – June 2024

Technical Trainee(Backend Developer)

- Optimized backend services using Java and Spring Boot, reducing response times for critical APIs by 15% and enhancing overall system performance. JWT authentication to secure REST APIs, enhancing access control and managing 500+ user sessions.
- Streamlined version control practices with Git, minimizing merge conflicts by 25% and significantly improving cross-team collaboration.

EDUCATION

Ujjain Engineering College, Ujjain(M.P)

June 2018 – June 2022

Bachelor of Technology in Chemical Engineering

Govt. Excellence Higher Secondary School, Ujjain(M.P)

April 2016 – June 2017

12th - Science

CERTIFICATIONS

- Java Full Stack Development from Jspiders (2023).
